

# Streaming Talents The Big Picture

**Streaming Talents** is a single-player game that combines life simulation (Streaming Simulation), resource management, and narrative choices.

Players take on the role of a new VTuber, which is a virtual streamer who uses a virtual avatar instead of their real face. They play as them through daily choices in livestream content, social interactions, business collaborations, mental health management, and life organization, gradually building a reputation online while navigating the pressures of the internet, fan expectations, parasocial fans, and corporate profit demands.

## Main Gameplay Loop – Day Loop

Wake up → Check status

Prepare → Decide today's actions

Stream → Select topics, interact, respond to messages

## Company Tasks → Accept/decline collaborations, ads, projects

Personal Time → Manage stress, learn skills, socialize

Sleep → Enter the next day

## Main gameplay loop:

Full Gameplay structure. (To see the individual sections see them in Core Mechanics.)
